Separating the Complexity Out of Automation<sup>™</sup>

**HAEMONETICS<sup>®</sup>**  
THE Blood Management Company

# Discover the Simplicity of Automated Red Cell Collection

Collecting two units of red cells from a single donor or patient has never been easier. Whether it's an allogeneic donor, autologous donor or **therapeutic** patient, **leukoreduced** red cell units are collected simply and comfortably. With its unparalleled portability, efficiency in operation and ultimate convenience for operators, donors and patients, Cymbal™ Automated Blood Collection System is the premier technology for blood collectors everywhere.

## Mobile Site Solution

- Expand donor and patient base with ultimate portability
- Increase mobile collections with automated 2RBC capabilities

## Fixed Site Evolution

- Maximize existing donor and patient base with automated 2RBC collections

## Efficiency in Automation

- Delivers standardized, high-quality RBC products
- **Saves at least one unit from incomplete procedures\***
- Provides built-in barcode scanner for management of procedure and donor documentation

\*Upon completion of two cycles, one unit can be saved from an incomplete procedure.

# Separating the Complexity Out of Automation™ - Cymbal® Automated Blood Collection System

## Breakthrough Dynamic Disk™ Technology

Proven technology utilized in the surgical environment through Haemonetics' OrthoPAT® Orthopedic Autotransfusion System and cardioPAT™ Cardiovascular Perioperative Autotransfusion System.

## Revolution in Rugged Portability

- Delivers the most compact, lightweight system – half the size of competitive devices
- Offers optional battery operation to support the most complex logistics
- Conserves valuable space in any collection environment

## Simplicity in Operation

- Delivers clear and concise on-screen instruction for ease of use and training
- Maximizes donor and patient comfort through its aesthetic design and quiet operation
- Provides automated process controls and integrated data management for cGMP compliance

Bring the simplicity of automation  
everywhere with the efficiency and  
portability of the Cymbal® Automated  
Blood Collection System.
