

Donor Doc[®]

Electronic donor
history questionnaire

SOFTWARE SOLUTIONS

Interactive donor health history solution

Donor screening and pre-qualification

Documentation:

Helps reduce incomplete questionnaires

Stores all data electronically

Paperless process saves time and resources

Helps minimize discarded products

A screenshot of the 'Gift of Life Donor Center' software interface. The window title is 'Questionnaire for Arielo, Ryan'. The main content area displays the question 'Are you feeling healthy and well today?' with radio button options for 'Yes' and 'No'. Below the question is a progress bar labeled 'Questionnaire Progress (100%)' which is fully filled. The interface is clean and professional, with a white background and blue accents.

Increase efficiency. Enhance your donor's experience. Interface with confidence. Gain flexibility.

Donor Doc® Features & Benefits

- **Designed to enhance safety while increasing efficiency and productivity**
- **Helps reduce incomplete questionnaires**
Prohibits skipped questions and requires completion of follow-up questions before donation
- **Paperless process**
May eliminate the need for manual entry or maintenance of paper records, thus providing savings in time and cost
- **Stores all data electronically online**
For easy retrieval, whether collected onsite or during blood drives, including digital signatures and donor photographs
- **Helps minimize discarded product**
By streamlining the review process and helping to control incomplete questionnaires and insufficient tracking of further questioning and follow-up

Improve safety

Help reduce errors and omissions

Enhance donor experience

Features to Help You

Helps you cater to donors' individual preferences

- Encourages donor self-screening
And allows donors to proceed through the health history process at a personalized pace on standard PC, tablet PC, or touch screen
- Uses digital-age options
